

NIMS INTENT

31 March 2005

CONCEPT:

- Training requirements identified in the NIMS IP are intended for agencies and jurisdiction that participate in the Homeland Security Grant process and for agencies and jurisdictions that are involved in the preparedness, response, recovery or mitigation efforts for domestic incidents, regardless of cause, size or complexity.
- Each agency or jurisdiction will be responsible for developing their own NIMS Implementation Plan.
- Each agency or jurisdiction may require additional training to meet that agency or jurisdictions expectations with regards to preparedness, response, recovery or mitigation efforts (agencies and jurisdictions may add to but not minimize the base line training requirements).
- Each agency or jurisdiction will be responsible for the keeping of records for the appropriate NIMS training received.
- Each agency or jurisdiction will be responsible for certifying their organization is NIMS compliant.
- Each agency or jurisdiction may certify instructors to provide the Nebraska NIMS base line training program internally.
- The base line requirement for NIMS training is successful completion of EMI IS-700 National Incident Management System and the EMI IS-100 Basic Incident Management System.
- NEMA will develop a "NIMS" Workshop in which attendees will be provided the minimum amount of training to successfully complete the IS-700 and IS-100 course requirements.
- NEMA will not keep training records for other agencies or jurisdictions.
- Changes **will be** made to this document as the NIMS program grows.
- NEMA will keep a copy of the NIMS Implementation Plan with any changes on their web site.
- All changes to the Nebraska NIMS Implementation Plan will be provided to the State Training Committee at the first team meeting.
